LASTING LEGACY

From Our Board President: Nick Anderson

This message is sent with great gratitude and appreciation to all who are involved with our organization! Looking back on EverHeart's past year's journey, I can think of only one word: CHANGE. From our organization's challenges with COVID-19, re-branding, market positioning for growth, and increased regulatory challenges, all while performing the required day-to-day job requirements, EverHeart has embraced CHANGE! By doing so, we as an organization are better than ever! I can confidently say, through this past year, our team has become stronger, closer, and better equipped to handle most any challenge.

Having been given the opportunity to serve on the board for EverHeart Hospice has been one of the greatest honors. In the years I've been a part of this organization, I've been able to view things from the perspective of a family member, healthcare employee, citizen, and board member.

*"I can confidently say, through this past year, our team has become stronger, closer, and better equipped to handle most any challenge."
-Nick Anderson, Board President*

It's easy to see the driving force of our organization is servant leadership and delivering quality care to our patients. EverHeart's mission is "To serve our communities by providing compassionate Hospice and Palliative Care to patients and families experiencing a life-limiting illness." It is divine

when an organization's mission statement aligns with personal morals and values.

EverHeart Hospice continues to strive to be a pillar within the communities we serve. Our people are top-notch with solid leadership and forward-thinking behaviors. All stakeholders involved, from our wonderful volunteers to the members of the board, take passion and pride in serving our patients and providing the best care possible. Our future is bright and exciting! On behalf of the Board, we thank you for your support and dedication.

From Our Chief Executive Officer: Kristi Strawser

2020 was an unprecedented year that has challenged the healthcare industry. However, out of challenge often comes blessings. We have been given the opportunity to see our organization's resilience, camaraderie, and flexibility. Most importantly, our focus has been on our mission and ensuring we provide an exceptional end-of-life experience. Over the past year we have:

- Implemented a new Medical Records System
- Completed a comprehensive re-brand including our new brand & name
- Improved our technology process to allow our staff to be more efficient and mobile
- Earned re-accreditation from surveys through the Joint Commission and Ohio Department of Health
- Relocated our Indiana office to Randolph County
- Held our first luminary remembrance gathering
- Completed a three-year strategic plan

EverHeart Hospice remains laser-focused on our purpose and our mission. We are focused now more than ever on *honoring life with trusted care*. The dedication of our staff has allowed us to continue reaching our goals and ensuring our quality care does not waiver.

"I want to personally commend and thank our amazing EverHeart Heroes, our staff at EverHeart Hospice. Your dedication to our organization amazes me every day and touches the lives of so many."

-Kristi Strawser, Chief Executive Officer

"Purpose: how you use your experiences, talents, and passions to better the lives of those around you"
- I. Peterson

I want to personally commend and thank our amazing EverHeart Heroes, our staff at EverHeart Hospice. Your dedication to our organization amazes me every day and touches the lives of so many. You truly are a blessing to those we serve and our organization. Thank You!

To our Leadership team, thank you for your time, dedication, and perseverance to our organization. This has not been an easy time to be a leader in healthcare; however, you continue leading with heart and dedication, and I am thankful for you.

Farewell

Thank you for your service, Dave!

On behalf of everyone at EverHeart Hospice, we would like to say farewell to one of our long-standing board members, Dave Wolters.

As his time on our board comes to an end, we would like to thank Dave for his six years of dedication and support as he served on our board as both President and Past-President.

When asked what led him to serve on EverHeart's board when he first joined, Dave shared,

"I believe as God's children, we are called to serve others. EverHeart Hospice serves others by showing compassion, kindness, and a divine spirit to make a difference in people's lives. I am grateful and privileged to serve as a volunteer in this organization."

Dave is a true example of leading with kindness and compassion, and we wish him all the best in his future endeavors. Thank you, Dave!

Senior Leadership

Our passionate team of senior leaders helps guide each department through their servant leadership, ensuring we stay true to our values and continue to be the prominent hospice for an exceptional and individualized end-of-life experience.

Quilting from the Heart

Personal Experience Inspires Gift to EverHeart Hospice

Not many people can say they have a “quilt factory” in their home. But if you ask Pat Meikle, she will tell you this is exactly what she has converted the upstairs of her home into, allowing her more space when creating her works of art.

Pat, a resident of Celina and a former director of the Mercer County Council on Aging for nearly 20 years, recently shared what inspired her passion for quilting and led her to donate one of her beautiful quilts, not once but twice, to raise funds for local hospice care.

Sewing was something Pat learned at a young age. Since she was tall for her age, sewing came in handy to tailor patterns to fit just right. As time went on, Pat later learned how to quilt, which quickly became her new hobby. She liked to share her quilts with family. After each of her loved ones had received one of her quilts, Pat knew she wanted to find other ways to use her passion to help give back.

“When you are young and raising a family, your top priority is wanting to be proud of your children. But as

you grow older, your thinking shifts, and you hope that your children will be proud of you.”

Over the years, she has donated over 400 quilt tops to various charities. Pat donates most of her quilt tops to local Lutheran churches for Lutheran World Relief. Local church members complete the quilts and prepare them to ship overseas for those in need.

“When you are young and raising a family, your top priority is wanting to be proud of your children. But as you grow older, your thinking shifts, and you hope that your children will be proud of you.”

Pat’s pieces are even more unique and one-of-a-kind because she uses recycled material scraps and fabric remnants that local community members donate to her cause. She shared that in addition to fabric

donations, she has friends who also help contribute their time and skills to assemble some of her larger pieces. One of her quilt friends, Janet Rush, a longtime quilter of over 27 years, assisted Pat in completing her more recent quilt.

A HISTORY OF GIVING

Pat has a history of giving back, particularly to help benefit hospice patients. In the 1980s, she donated a quilt to Mercer County Hospice (later becoming a part of

EverHeart Hospice in 1990) to hold a raffle during the Mercer County Fair. She shared she has a soft spot for hospice and recognizes the importance of growing the community's awareness for the services that hospice can provide for individuals experiencing a life-limiting illness.

"People are often afraid to use the word "die" or "death," but this is something that we all experience at some point. Having hospice makes this chapter of life a little easier."

When reflecting on her own experiences, she said that there was a time when hospice wasn't yet available to help offer care to loved ones.

When she was providing care for her father-in-law in the 1960s, there was no hospice option available, and she often felt lost. She was struggling to balance her time between caring for him and her young children at the time. Pat recalled one moment in particular when her

PAT MEIKLE (LEFT) AND JANET RUSH (RIGHT)

"People are often afraid to use the word "die" or "death," but this is something that we all experience at some point. Having hospice makes this chapter of life a little easier."

of professionals that could have provided extra care for him, allowing her more time to focus on her children and taking in those last moments they had to spend with their grandfather.

then five-year-old daughter had enough of being quiet around her grandfather and decided to run off next door and play on her own.

After a moment of panic, she found her daughter with a pile of books pretending to read to herself.

"I would have greatly benefited from hospice at this point in my life. Caring for someone that is ill really affects the whole family."

She relied on neighbors, friends, and family to help take care of her children, knowing if she couldn't be with them when providing care for her father-in-law, they were in safe hands with loved ones.

Looking back, Pat knows if hospice had been an option, there could have been a team

THE IMPORTANCE OF HOSPICE

A few years later, Pat's own mother became ill and needed extra care in her home. At the same time, Pat's brother Mike had just moved to New York. However, knowing their mother needed

someone to be with her, he moved back home and cared for her for five years.

With Pat's previous time spent caring for her father-in-law, she knew they would likely need additional help for her mother when her health continued to decline. Hospice care was slowly becoming available in some areas, and Pat knew this could help benefit her mother. Pat's mother was on hospice for just a few short weeks, but that was all it took for her to see how much of a blessing it was on their family.

This would not be the last time that Pat would find the importance of hospice care.

Pat's husband, Bill, has the heart of a caregiver just like Pat. His first wife, Mary, had cancer, and he was known in the community for how well he treated her. This inspired Pat to offer this same love and support to Bill when he became ill. For four years, Pat has cared for her husband

at home. Recently it had become harder to keep him at home while his health declined. When Bill could no longer walk, she knew it would be best for him to enter a facility for extra care.

Pat reflected that she could either lament the fact that she could no longer care for him at home, or she could celebrate that she was able to take care of him in their home for four years. "There is nothing wrong with turning to help when it is needed," Pat shared. When her husband moved into the facility, she knew she might also want to contact her local hospice for extra support.

"I was used to being the caregiver, but when you are the receiver, you truly realize how much kindness there is."

She knew if she needed to reach out to EverHeart for hospice services, it did not mean giving up but instead could allow her more time to spend with her husband outside of the caregiver role. "I was used to being the giver, but when you are the receiver, you truly realize how much kindness there is."

We will be featuring Pat and Janet's beautiful quilt in an upcoming raffle fundraiser in November to celebrate National Hospice and Palliative Care Month. As it gets closer, we will provide more information on our social media and website on how you may purchase tickets to win.

We Remember

Year in Review

A Time of Remembrance 2020

Luminaria Memorial Drive-Thru

Sometimes change can lead to the creation of something new and beautiful. Typically, each year we hold a remembrance gathering for families of past patients. They would have a chance to re-connect with our staff that helped care for their loved ones and share in a moment to remember them. This year due to COVID-19, we were unable to hold an in-person gathering, so we had to think of a new way to honor lost loved ones with a ceremony just as meaningful.

On November 18th, we held our first-ever “A Time of Remembrance-Luminaria Memorial Drive-

Thru.” Sarah DePoy, the Bereavement Coordinator at EverHeart Hospice, shared, “The 2020 Luminaria Memorial Drive-Thru was unlike any other memorial event that EverHeart Hospice has hosted. Not

only did we want to honor those lives lost that received our services, but also those lives lost due to COVID-19. To see the parking lot full of luminarias, the candlelight flickering in the evening night representing so many lives lost was breathtaking.

The families and friends who attended shared how meaningful the experience was and how it allowed them to express and honor their feelings in their own private way.”

Over 60 vehicles were able to take a moment to remember someone special to them. We plan to make this a new annual tradition to provide a time of

reflection and healing for the community. This year’s “A Time of Remembrance-Luminaria Memorial Drive-Thru” will occur on Thursday, December 9th, from 6:00 pm-8:00 pm.

Year in Review

26th Annual Memorial Golf Outing

July 30th, 2021 marked the return of our Memorial Golf Outing, presented by May Financial Group and The Messenger Press. At the Mercer County Elks Golf Club, 32 teams enjoyed a day of fun with a shared purpose to help raise funds that allow EverHeart Hospice to continue their mission in providing compassionate Hospice and Palliative Care for patients and families experiencing a life-limiting illness.

This year a brand-new Golf Ball Drop replaced the traditional 50/50 raffle. Instead of tickets, players could purchase a numbered ball. Once all the numbers were purchased, the golf balls were dropped from a boom truck onto the putting green. The person who purchased the number that landed in the hole received half the proceeds from the drop. Each year EverHeart Hospice also features “Skirts and Ties” as a separate fundraiser to benefit local

charities and organizations. This fun activity allows players to tee off closer to specified holes. Proceeds this year totaled \$500 and were donated to the Walk to End Alzheimer’s Grand Lake Chapter.

Erica Wood, Business Development Specialist at EverHeart Hospice, shared, “I would like to thank all of the wonderful staff members, volunteers, Board members, sponsors, and community partners who worked together to ensure our outing was a great success. This year I was humbled by the support our sponsors and golf teams showed for EverHeart Hospice. Their generosity will truly make a difference and allow us to continue our mission in providing compassionate care to patients and families.”

Our 27th Annual Memorial Golf outing is scheduled for Friday, July 22nd, 2022, at Stillwater Valley Golf Club in Versailles, OH.

Re-brand

New Name, Same Exceptional Care

State of the Heart Becomes EverHeart Hospice, Celebrates 40th Anniversary

April 1st, 2021 marked the final phase of our re-branding journey as we officially became EverHeart Hospice. While the only thing that truly changed for our agency was our name and our uniform look, everyone was filled with excitement as we returned to our roots and brought “Hospice” back into our

name. Many steps have led us to this point, as we worked to inform everyone in the communities we serve of the upcoming change prior to April.

With the same leadership team and dedicated staff members, we will continue to provide exceptional, compassionate care to patients and families for many years to come.

40 YEARS OF CARING

Along with the challenges of 2021, there were a few things to celebrate this year. Not only have we changed our name to EverHeart Hospice, but we are also celebrating our 40th Anniversary! In 1981, our agency was founded to provide much-needed hospice care to patients and families in the communities we serve.

Join us as we continue to celebrate 40 years through the end of the year. We will be sharing additional stories, facts from our history, and fun activities to commemorate this milestone.

Testimonials

What Families Say About EverHeart

"Thank you so much to each and every one of you that provided such compassionate care for my father. You helped make it possible for him to pass at home and for us to fulfill his care until the end as we all hoped to do to honor his wishes."

"I cannot begin to tell you what a tremendous difference you all made for my mom and I in just the short time she was in your care. If there was any better possible way to transition to the next life, I cannot imagine what it is. My mom was comfortable and mostly pain-free in your wonderful care. Being able to be with her 24/7 in those last days, with your support, means the world to me. I am sure my mom is smiling down on you all!"

"I want to thank you for the care provided to my mother. Since I lived out of state, it was especially important to me to know what exactly her condition was so I could be with her when her final hours came. I was able to do that due to the excellent communication I had. The Hospice services were truly a blessing."

"Our family wants to thank you for your loving care and constant support of my father. Just knowing that someone was there to "have our backs" during his death process was so comforting. All of you were there when we needed you. Bless you & your excellent work."

"Thank you so much for the wonderful and loving care of our dad. What you do for families at this difficult time means so much. You feel like a part of the family."

"Words will never express the gratitude I have for EverHeart and the services you provide for families. The kindness and compassion I felt from everyone is indescribable. I couldn't imagine going through the end-of-life journey without your support!"

"Thank you so much for all you have done for our dad. He enjoyed every visit, every smile, every caring touch that you gave him! I also enjoyed and really appreciated all the care you gave him, and me and our family!"

"Thank you to everyone at EverHeart for the amazing care that you provided to my mother and our family. I truly cannot say enough good things about every member of the team. I have never been more impressed with an

organization. Thank you for making a difficult time as positive as possible."

"We can't thank all of you enough for your kindness and support during our mother's last days. You were all so considerate and helpful at all stages of her Hospice care. You were careful to follow my mother's wishes while still keeping her in comfort and peace until her passing. Words can hardly express our thanks!"

Rooted in our Community

In the fall of 2020, we officially opened our new office location in Winchester, Indiana! Kristi Strawser, Chief Executive Officer at EverHeart Hospice, shared some factors that led to moving our Indiana office location from Portland to Winchester.

“Over the years, technology has changed, and our staff are no longer dependent on an office setting to provide our exceptional Hospice Care. We no longer needed a large office setting and decided to downsize our office. This move will allow our organization to serve Indiana from a more centralized location. We are moving our office location to Winchester; however, nothing will change regarding our care and services in Jay County. It will continue to be our mission to provide exceptional Hospice and Palliative Care to those in the Portland and Jay County communities while also taking a more active role and presence in the Winchester community that we have served for many years.”

This summer, Randolph County United held a ribbon-cutting celebration to welcome us to the Winchester community!

Being Community-Focused is one of our core values at EverHeart Hospice. While this past year was unique with a shift from in-person events, there were still many ways we found to engage our team members in giving back to the communities we serve.

- Darke County United Way’s Stuff the Bus campaign
- Delivering pizzas and family meal kits for staff members at area facilities to offer extra support
- Celebrating “Do something good for your neighbor” Day
- Assisting with area senior event drive-thrus and car bingo
- Encouraging area hospitals with appreciation treats
- Participating in a scarecrow contest and tree decorating for nursing facility residents to enjoy
- Holding our first ever “A Time of Remembrance Luminaria Memorial Drive-Thru” for the public
- Co-Hosting the “Raffle to Remember” to benefit the Alzheimer’s Association
- Holding essential care item and baby doll drives for residents at local nursing facilities
- Collecting winter items to donate to The Journey Home

Lasting Legacy

Legacy Gifts Funded by Generous Donors

The Women's Giving Circle is a welcoming circle of women who combine their resources to support the mission and goals of EverHeart Hospice. They strengthen all agency departments through funding unprecedented projects and opportunities.

Each year we invite employees to submit proposals for projects or opportunities that need funding assistance. Submissions are shared with the entire Women's Giving Circle to review and determine funding at the annual meeting. Just a small example of the items and projects they have funded include:

- Veteran Certificate Holders
- Weighted Blankets
- Sound Machines
- Echo Dots at our Hospice Care Center
- Bereavement Journals and Candles
- CPR Training Mannequins
- Vein Finders
- Frames for our Legacy Program
- Heartbeat Stethoscope Recorders

You may also find our recent video of the projects they granted this past year on our website under "Giving, Women's Giving Circle." We would love to grow our Women's Giving Circle with new members from all around our service area. Contact Erica Wood at 800-417-7535 option 6 or ewood@ehhospice.org to learn more about becoming a member.

At EverHeart Hospice, we know the importance of honoring life with trusted care. One of the ways we have expanded on honoring our patients is through our Legacy Program. Our goal is to provide as many patients as possible a special legacy item for their loved ones to cherish forever.

Our idea to start a specific Legacy Program began with a grant from the Harry D. Stephens Memorial in 2018. The grant was used to purchase teddy bears that our music therapists use to place recordings of patients' heartbeats or special voice recordings the family may have of the patient.

Since then, we have been fortunate to receive additional grants and funding from the Harry D. Stephens Memorial, Women's Giving Circle, Darke County Foundation, and Cooper Family Foundation. Their gifts allowed us to purchase additional bears and also grow our Legacy Program to include framed photos of patients holding their loved one's hands. We hope to continue expanding our program with new ideas to provide unique and one-of-a-kind cherished keepsakes to families to help honor and remember their loved one who has passed.

If you are interested in learning how you may contribute to our Legacy Program, please call a member of our team at 800-417-7535 option 6.

EverHeart

HOSPICE

Thank you for your continued support.

Celebrating 40 years of
honoring life with trusted care
